

Generic MO Pharms Disposal Social Posts

December 2021

The Missouri Product Stewardship Council (MO PSC) Pharmaceuticals Workgroup and the Product Stewardship Institute (PSI) would like to share the following sample social media posts for use by local governments, the state governments, organizations, businesses, and any other MO-based stakeholder concerned with the safe management and disposal of unused medication. These posts include a link to the map of safe drug take-back locations in MO developed by the MO PSC Pharmaceuticals Workgroup and PSI: bit.ly/MO-safer-disposal.

If you have any questions, please reach out to Angie Snyder, MO PSC Pharmaceuticals Workgroup Chair, at asnyder@greenecountymo.gov or 417-619-3403.

If you adapt one of the posts below, please be sure to include the hashtag: #MOSaferdisposal. Please also feel free to use one of the sample informational graphics from the MO PSC website: missouripsc.org/initiatives/pharmaceuticals; suggested graphic pairings are listed with each sample post below.

Sample Social Media Posts

- Careless disposal of medication can drastically affect your life. Don't believe it's true? Is it worth losing your loved one to find out? Safely dispose of your meds. Learn more: bit.ly/MO-safer-disposal. #MOSaferDisposal
 - Suggested graphics:
 - Accidental Poisonings
 - Protecting Family
 - Kids Play with What They Find
- Don't flush your meds down the toilet or throw them in the trash. The environment will thank you. Learn more about safer disposal options: bit.ly/MO-safer-disposal. #MOSaferDisposal
 - Suggested graphics:
 - No Flushing
 - Environmental Impacts
 - Meds Don't Belong in Trash

- It's easy to dispose of your medication safely: drop off unwanted meds at a pharmacy, police station, take-back program, or use a mail-back program. Doing so can save a life. Find a safe #Missouri drop-off site to dispose of meds: bit.ly/MO-safer-disposal. #MOSaferDisposal
 - Suggested graphics:
